President's Message

Last week we had a very entertaining speaker, Janice Gaulke, from Chisholm Institute in Rosebud. Janice told us about the challenges faced in helping the students gain some identity and purpose. A real eye opener and we could have been there for hours listening to such an enthusiastic speaker. On Thursday Brian represented the Club at Chisholm where we were presented with an appreciation certificate for our support of students through scholarships.

We are looking for ideas for our Xmas party – regarding venue, food and entertainment. It has been suggested that we have a Kris Kringle present exchange this year – your ideas are welcome.

The Board decided at the last meeting to sell Rotary House in the New Year and put the money towards purchasing our own warehouse. We currently pay over \$60,000 to rent our existing warehouse and we feel we could better serve the community by having our own purpose built premises

Claire spoke two weeks ago about the findings of the club development survey which was aimed at getting feedback from members and finding ways of getting members more involved and also what suggestions and ideas they have for improvements.

It's always a challenge for the executive to put before the members new ideas regarding making changes to the way the club is run. Questionnaires were sent out to all members some time ago, so it was very disappointing that 9 members did not take the time and effort to respond by filling in the questionnaire.

On Sunday night we were recognised at the end of event function for the Archibald prize exhibition. All the clubs in the cluster contributed and, apart from making sure the patrons were well parked we raised over \$6,000 for the Mayor's Charitable Trust that supports people doing it tough in our area.

We also received a mention in the Leader for our support of the Colour For Life sausage sizzle at RSC. Members, please try to get to the warehouse for the Christmas break up on 19th December and show your support for our dedicated band of volunteers.

Regards, President Lee

I couldn't resist this one from Leunig

*'How long will my life be? As long as a piece of string!
 Will my life have knots in it with loops and tangle-ing?
 Oh yes it will and bits will twist and trip you up and fray.
 So long as it's continuous and goes from day to day.*

Your life should be OK!'
